Mockup Feedback

I think you've done a great job so far with the site. I really like the navigation bar at the top, it has great balance and definitely matches the theme I'm looking for.

Something I think that could be changed is the yellow section at the bottom. While yellow and green are the two theme colors of the site, I think having a bright yellow background is a bit distracting. The navigation bar, as aforementioned, does a great job of sticking to the theme while not being too distracting. I like the dark green for the text, since it's still very legible, but maybe a white background would be better. However, I still think that there should be a yellow accent that's maintained throughout the site to continue the theme.

It is definitely immediately clear that the site is designed to be an informational page about the tournament, so I think you're on the right track.
